

# SOUTHAMPTON CONCERT WIND BAND

## *Springtime Serenade*

**Southampton Concert Wind Band** invites you to welcome the Spring with this bright and breezy concert. SCWB once again presents a wonderfully varied programme of music.

Everyone will recognise the *Four Dances from West Side Story* and the melodies from *In The Miller Mood*. It would hardly be an SCWB concert without a rousing march, and the one in the evening's programme is said to be Sousa's wife's favourite march of his, *The Thunderer*.

On the more classical side there is Suppé's overture *Poet and Peasant* with themes said to be the most often quoted material for comic effects for stage productions and animated cartoons. There is also the delightfully familiar *Rondo* from Mozart's *Horn Concerto No.4*.

With Percy Grainger's *Shepherd's Hey*; *Sing, Sing, Sing!* made famous by Benny Goodman and many more pieces - the only problem you will have is the tune stuck in your head, humming on the way home. Which one will it be!?

Southampton Concert Wind Band is a thriving organisation, playing an active part in the amateur musical community. It has shared the concert stage with a variety of musical partners, ranging from wind bands to brass bands; choirs to international virtuosi. As well as regular concert and bandstand appearances, SCWB has, in recent times, participated in wind band festivals, achieving eight Platinum Awards.
